Mentor - Mentee Program (MMP)

Dear Faculty Members and Dear Students,

It gives me great pleasure to inform you that our Government Medical College, Narayanpet is implementing the Mentor–Mentee Program as part of our ongoing commitment to holistic medical education and part of NMC guidelines.

The mentor–mentee system is designed to provide academic guidance, personal support, and professional mentoring to our students. Through this Program, each student will be assigned a faculty mentor who will serve as a guide, motivator, and confidant throughout their academic journey. This initiative aims to help students cope with academic challenges, develop professional values, maintain emotional well-being, and grow into competent and compassionate doctors.

I request all faculty members to actively participate in this program and extend their wholehearted support to their mentees. I also encourage students to make the best use of this opportunity by maintaining regular interaction with their mentors and seeking guidance whenever required.

I am confident that the Mentor–Mentee Program will strengthen the bond between teachers and students and contribute significantly to the overall development of our future medical professionals.

With best wishes for the successful implementation of this Program.

The Mentor-Mentee Program (MMP) for 2025-2026 Batch as follows:

S.No.	Mentor	Mentees
1	Dr. P. Ramdas Professor of Ophthalmology	ALIYA ANWAR A
